

Join the KONZA QHIN™

We Have you Covered

Your Solution for National Exchange

Connect to the Trusted Exchange Framework and Common Agreement (TEFCA™) with KONZA National Network.

- The 21st Century Cures Act called on the ONC to develop and support a Trusted Exchange Framework and Common Agreement (TEFCA).
- This created a common set of technical and legal requirements to simplify and enable nationwide exchange of healthcare data.
- A central component of TEFCA is operationalizing Qualified Health Information Networks, or QHINs, to serve as centralized exchange partners in a network-of-networks approach.
- KONZA is transforming access to comprehensive patient data as one of the first Designated QHINs under TEFCA.

The Value of Joining the KONZA QHIN

Expand your access to data from a single connection

Connect into TEFCA through your existing HIE connection.

Join the national exchange through a trusted and strategic partner

Leveraging 14 years of HIE expertise, KONZA is expanding access to healthcare data through TEFCA.

Streamline your interoperability strategy

- Advance care coordination
- Provide patients with access to their health records
- Improve patient outcomes
- Reduce the need to participate in multiple exchanges
- Relieve the burden of public health reporting
- Support emergency preparedness and response

KONZA, a QHIN for All

- State and Regional HIEs
- Payers and Health Plans
- Providers
- Public Health
- Organizations engaged in value-based care models

Join the KONZA QHIN and become part of a dynamic community dedicated to revolutionizing healthcare and improving patient outcomes.
